Race Transfer Policy

Race Organisers

Rules

- The Transfer option is available for Triathletes who wish to transfer their race entry to another Triathlete.
- The Transfer is for the race entry for the particular race only.
- The Triathlon Ireland transfer process transfers the race registration only. No payment is transferred through the Triathlon Ireland system. Any payment between the transferring and receiving Participant must be arranged directly between those Participants. Triathlon Ireland and the Race Organiser are not responsible for managing or recovering those payments.
- Transfers are applicable to individual race entries only. Transfers are not available for relay entries.
- The Race Organiser decides whether race entry transfers are permitted for their Event. Where an Event uses the Triathlon Ireland Race Management System, the Race Organiser may enable the Race Transfer option.
- Once a transfer has been completed, the same entry cannot be transferred again. Any refund entitlement following a transfer is subject to the Event Organiser's published refund and cancellation policy.
- A race entry can only be transferred for the same Event and cannot be transferred to a different Event.

Race Transfer Capabilities

The Race Transfer process allows an eligible Participant to transfer their race registration to another eligible Participant where the Race Organiser has chosen to allow transfers. The process transfers the race registration only. No payment is transferred through the Triathlon Ireland system. Any payment between the transferring and receiving Participant must be arranged directly between them.

Races Managed Through the TI Entry System

Races managed through the Triathlon Ireland entry system may use the Race Transfer Process where the Race Organiser has chosen to allow transfers. The Race Organiser may close the transfer option at any time, provided transfers are closed no later than 72 hours before the published Event start time.

Criteria for Races that Opt into Race Transfer Request

- Race entries must be managed through the TI Race Management System.
- Transfers must be completed no later than 72 hours before the published Event start time.
- The Event must be in the future and the transfer must be completed no later than 72 hours before the published Event start time.
- Transfers may remain available whether general race registration is open or closed, where the Race Organiser has chosen to allow transfers.
- Race registration transfers are not available for relay entries.
- Race transfer is available for Adult race registrations only.

Race Organisers – Race Registrations List

- If a race registration has been transferred to a TI Member but has not yet been accepted, the receiving member will not appear on the race entries list.
- The transferring member will remain shown as Active and will be marked as: "Pending transfer to: TI Number of receiving TI Member".

- Once the transfer is accepted by the receiving member:
  - the transferring member will be shown as “Cancelled” and marked as “Transferred Registration”; and
  - the receiving member will be shown as “Active” and marked as “Received Transfer”.
- The Race Organiser is not responsible for managing payment between the transferring and receiving Participant. Any payment must be arranged directly between those Participants.
- This will be reflected in the race export.
