Motivation for applying for Leinster representative on TI Board of directors

I discovered triathlon late in my life mainly due to the daunting challenge it represented. After my first Try-a-Tri, I became an unashamed triathlon addict, loving every minute of the healthy and energetic lifestyle it opened my eyes to.

My appreciation only increased when I joined a club and was properly immersed in the triathlon community. Over time as my confidence and knowledge of the sport grew, I took on more responsibility in the management/direction of the club to make it easy and attractive for people from walks of life to get involved in Triathlon.

My motivation behind this application is simple – Triathlon has infinitely changed my life for the better and I would love to help others have that opportunity, not only on a club scale but on a regional and nationwide basis.

In this, I believe that my many years of business/management acumen coupled with my zeal for our sport will help the Triathlon Ireland Board shape policy/strategy in a way that maximises the participation of triathlon firstly, in Leinster and ultimately, Ireland.
