

Race Transfer Policy

Race Organisers

Rules

- The Transfer option is available for Triathletes who wish to transfer their race entry to another Triathlete. The Transfer is for the race entry for the particular race only.
- Triathlon Ireland does not take any responsibility for the payment of the entry, this is the sole responsibility of the athletes taking part in the transfer.
- Transfers are applicable to individual race entries only – entries purchased or provided through sponsors, charities and free entries cannot be transferred.
- Only races that 'opt in' for the race transfer option are included in the race transfer.
- Once a transfer has been redeemed, the option to transfer race entry again is not available. You may only transfer once.
- If a member chooses to transfer, they forfeit their eligibility for a refund to the event they originally entered
- If a member chooses to accept the transfer they cannot refund the entry.
- A race entry cannot be transferred to a different race

Race Transfer Capabilities

Registration transfer gives Triathlon Ireland (TI) members the option to transfer their race entry to a fellow club member or training partner when they can no longer take part in a Triathlon Ireland event.. The purpose of the race transfer process is to transfer the race entry/registration ONLY. No monies will be transferred within the TI System - this will need to be arranged/completed between both TI Members processing the transfer. Triathlon Ireland accepts no responsibility for the non-receival of race entry fees from a transferred race registration.

Races that are managed through the TI entry system will have the option to opt into the Race Transfer Process if they wish to allow transfers. The Race Organiser (RO) will have the option to switch off the race transfers at any time two weeks before the event takes place.

Criteria for races that opt into Race Transfer Request:

- Race entries must be managed through the TI Race Management System
- Race Registration/entry fees can be either paid entries/registrations or free entries/registrations to TI Managed Events
- Race status is set as any of the following;
 - Active/Inactive/Cancelled/Completed/Deleted etc.
 - Only race date is taken into account. (Two weeks Pre Event)
 - TI Members who register for the race when it is in Active status, can transfer their registration no matter if the status is changed to one of the above.
- Race date is in future
 - Race date is more than in two weeks time
 - If date is less than 2 weeks until the race start, race transfer option will not be available
- Race registration can be either opened or closed
 - Allowing for Transfers (Up to two weeks before event) for race to fill start lines if transfers are accepted.
- Race registration transfers is not available for relay entries
- Race transfer works for both Junior or Adult race registration

Race Organisers - Race Registrations List

- If Race registration was transferred to a TI Member, but was not accepted yet, this Receiving Member will not be shown on the Race entries list.

The Transferring Member will be still shown as active and will be marked as “pending transfer to: TI Number of receiving TI Member”
- If the transfer was accepted by the Receiving Member, the Transferring Member will be shown as ‘Cancelled’ and marked as “Transferred Registration” and Receiving Member will be displayed as ‘Active’ and marked as “Received Transfer”

- The Race Organiser should not have to deal with the payment between the two transferring TI Members - this is organised between the TI Members. This will be reflected in the race export.
